File No. 94 of 1907

Serial No.

by the medical officer Mr. Muthusami Does.

Both the Dr Commr. of the Dt & the Asstt Commr in charge of the Dn. speak very highly of the Amildar but deprecate the complaining spirit of the medical ~~Asst~~ officer & suggest that such a spirit should be discouraged, as otherwise, it will not only weaken the hands of the Executive, but will damp the spirit of energetic & enthusiastic Rev: officers. The Dr Commr observes that if the medical officer expected the Amildar to wait upon him, he was certainly in the wrong, as the Amildar's duties are manifarious.

In this connection the Dr Commr solicits the issue of definite orders re the relationship between the Rev: & medical officers in matters coming under their common administration.

It is here respectfully submitted, that this is not the only instance in which the medical officers have complained against the Rev: officers when the former are at fault. It is a recognized fact that without the sympathy & cooperation of the Rev Authorities, the medical men can hope to do little or nothing in the Talukas & distts & it seems very expedient nay, very necessary, that the medical authorities should enlist the sympathy of the local Rev: Authorities instead of trying to domineer over them & give up their complaining

Bds in regard to all schemes for Sany improvement which may be under the consideration of such boards.

2) A meeting of the members of the Dt Bd, Kundgol was held on the 14th Feb 08 to dispose of the following refs

(a) Sany Comr's refce asking for proposals as regards the formation of & the duties & powers to be delegated to the new Dt Sany Bd & the funds to be administered by that body.

(b) G. P No. 1378-92[x] dd 10.8.07 sanctioning the scheme for the constitution of a Dept of Public Health in the State.

(c) Sany Comr's letter enquiring if the Sany Inspectors have been put under the Dt Med & Sany officer pending the appointment of a Dt Sany officer.

3) From the minutes of the meeting it will be observed that the members of the Dt Board apprehend that the power till now exercised by them is contemplated to be taken away from them. The Dt Bd does not appear to like the idea that the Dt Sany Bd shd sit in judgment over them & Dt Sany Bd being in turn governed by the Central Sany Board which has its sittings in Bangalore.

4) It is urged that the members of the Local

NOTE—Contn sheet.

Serial No.

Bds have not been unmindful of their duties & responsibilities in regard to Sanitation. They have, it is said, recognized the benefits of Wholesome supplies of drinking water, of free light & air and of proper drainage and other matters concerning public health. With daily advancing notions of Hygiene & Sany Engineering and with Govt to insist on those notions taking a practical form, what the local boards & Municipalities require is not so much the help of medical men as of Engineers with a knowledge of Sanitary Science. It is argued that without the help of a Central Sany Board at Bangalore, the evils of damp & unclean surroundings and the paramount importance of wholesome drinking water have been recognized all over the Province.

The Bd states that should Govt be pleased to decide to appoint a Dt Sany officer, he may be made entirely subordinate to the Bd, to be appointed & removed from office by it, as otherwise there will be room for unnecessary friction & unpleasantness between the Dt & Sany Bds and that the age, experience, and intelligence and knowledge of local requirements possessed by the members of the Dt Bd may not be suspected to the whims & fancies of Dt or Divisional Sany officers with more departmental ardour than

and the repeated complaints made by the Sany Commrs. against the local Rev authorities especially after the Health Scheme was sanctioned amply show that there is already good deal of friction between the Sany & Rev Depts, the former with its technical knowledge of Sany Science attempting to exercise undue control over the latter and trace all dirlection of duty to the Rev Depts and the latter naturally resenting it. _____

9) In these circumstances, the Public Health Depts may not be able to turn out any useful work for the State, unless it enlists the sympathy & Co-operation of the Rev Authorities.

(1) 23) The ~~papers~~ papers under disposal in this file deal with the question of the relations between Local Boards & Municipalities with the new Sanitary department. The Dy Commrs of Tumkur and Chitaldrug & the Local Boards of those Dts. urge strongly that the new dept should not take away any of their present powers. There seems to be a certain amount of misconception on both sides yet it is desirable to lay down clearly the relation of the new Dept to the Local Boards & Municipalities and to Govt.

24) The first thing to be said about the Sanr Dept is that it is mainly to be an advisory & consultative dept, its direct executive work being confined to epidemics and to vaccination As regards the execution of Sanitary works while the Sanitary & Asstt Sanr Inspectors will be in immediate charge of all petty works & the P.W.D in charge of all major works, the Dy & Divisional Sanr Officers & the Dy & Sanr & Sanr Commr will merely scrutinize projects in the initial stage & advise local bodies & Govt

Note—Contn sheet.

G.P.B—50 000—17-3-07

Serial No.

on their sanitary aspects inspect works in progress & bring to notice any defects in execution &c. They will not be directly in charge of work nor will they have any powers of sanctioning work.

25) The D^t Sanitary Board will consist of the D^t Commr, the D^t Engineer, the D^t Sanl Officer, & the D^t Asst Sanl Officer & two non official members and will advise the Local & Board & municipal Boards in the D^t as to the desirability of all sanitary works costing not more than 1000 Rs. Similarly the Central Sanitary Board consisting of certain heads of depts will similarly advise Govt upon all Sanitary projects costing more than 1000 Rs. Neither of these bodies will have any powers of sanction but will merely advise the local bodies of Govt respectively. It will be seen that the D^t Sanl Board practically comprises all the important members of the Local & Board and that its examination of projects only affords an opportunity for a personal & informal discussion of an important class of work from various points of view, a consultation for which the ordinary channels of official routine do not afford sufficient scope.

NOTE—Contn sheet.

GPB—50,000—17-3-17

Serial No.

~~Constn~~ Constituted as it is & with its functions thus defined there is not ~~any~~ reason to fear that the Dt Sanr Board will usurp the powers of the Local bodies. Neither will the Central Sanitary Board curtail the powers of local Bodies. nor hamper the actions of Govt. In Col. Benson's scheme no doubt he had proposed that these Boards should be sanctioning authorities but in major Brackman's letter (1907) he has proposed that they should be only Consultative & it is this view that has been adopted by Govt in their order of August 07.

(11) 26) In one of the resolutions of the first meeting of the Central Sanitary Board held in Dec 07, it was suggested that only projects costing more than 5000 Rs ~~shd~~ need ~~comm~~ go up to the Central Sanitary Board for opinion. This may be adopted and all projects costing less than 5000 R may be dealt with by the Dt Sanr Board.

27) In this connection it may also

GPB—50 000—17-3-07

Serial No. (iii)

be considered whether the powers of sanction possessed by D.B. Boards & municipalities may not be enhanced.

28) At present all works costing 500 Rs. & less are sanctioned by the Presidents of Local Boards & municipalities & all other works are sent up to Govt for sanction. This involves a lot of unnecessary correspondence in the Sects about small works and the limit of 500 Rs may, I think, be well raised to 1000 Rs. This can be easily done by suitably altering the L. S. Rule &c.

29) As regards the procedure to be adopted as soon as a sanitary work is estimated for the project should be placed before the D.B. Sanitary Board for opn & on approval by it, the work should be sanctioned by the Presidents of the local body concerned if it costs less than 1000 Rs & sent up to Govt for sanction if it cost more.

30) Works costing 5000 Rs or more should also be referred to the central Sanitary Board before tabum to Govt & by the Presidents of local bodies or the Govt as the case may be.

31) The sanctioned budgets of municipalities & local Boards will ~~enable~~ give sufficient

Note
Works 5000 Rs sanctioned by the Board & now by the Government
BB.

GPB—50 000—17-3-07

Serial No.

information about funds available for sanitary work by each local body to enable the Dt Sanit Board to form an opinion as to the relative urgency & desirability of works.

32) It does not seem necessary to invest Sanitary Boards with any more powers ab present.

(IV) 33) As regards control over Sanitary Inspectors, which is referred to by both the Dy Comrs, I fear ~~para~~ the last two sentences of para 3(6) of the G.O. of August 07 go a little too far in ~~so~~ declaring them to be directly subordinate to the Dt Sanitary Officer. In the reasons urged in the letters of the Dy Comrs it is necessary that the Sany inspectors & Asst Sanit insprs should be fully & directly subordinate to the Presidents & Vice presidents of the local bodies who employ them. In times of epidemics & when ~~extra~~ special Sanitary measures are necessary, these Sanitary insprs & Asst Sanit insprs should be at the disposal of the Dt Sanit Officer & they should be provided for. Perhaps it is

Note—Contn sheet.

GPB—50 000—17-3-07

Serial No.

even desirable to have a small reserve of 3 or 4 men directly under the Sanit Comm^r to be available on such emergencies. The question was considered separately & it was decided that for the present ~~Govt~~ passed medical pupils should be made use of as a reserve.

84) I think that if this direct & full subordination of the Sanitary Inspectors & Assistant Inspectors to the Dy Comm^r & local authorities be made quite clear much of the ~~objection~~ prejudice among D.Cs against the new Scheme will disappear. In order to ensure that only duly passed & qualified men are appointed as Sanit Asst Sanit Inspectors the Dy Comm^rs have been asked to appoint ~~candidates~~ men from lists supplied by the Sanit Comm^r. The Sanit Comm^r may be instructed to bring to the notice of Govt cases ~~of~~ of unqualified men being appointed in contravention of these orders.

The presidents of the Municipal and District Boards of Jamkhandi & Chikaldara districts, forwarded copy of the proceedings of the respective District Boards, regarding the duties and powers to be delegated to the District Sanitary Board.

With reference to the duties & powers to be delegated to the District Sanitary Board, the Sanitary Commr had been requested to ascertain the views of the presidents of the Municipal & District Boards. His reply has not yet been received.

The opinions of the presidents of the Municipal & District Boards have not been called for [illegible] as ought so no replies are due [illegible]. Orders are solicited as to whether the reference may await reply from the Sanitary Commr. on this point or a reminder may be sent to him.

Orders have not been passed on the reference received from the Sanitary Commr. requesting that all references relating to Sanitary works should be referred to the Sanitary Department for opinion.

Yes. Please issue a reminder to the Sanitary Commr.

Sir

I have the honour to forward herewith copy of the Board's Resolution upon the Sanitary Commissioner's communications in reference to Government Proceedings No.1378-92/San.93-06-8 dated 10th August 1907.

The members seemed to feel that the new Sanitary Board was going to supersede the Local Boards and that there would be very little left for the long existing Boards to do when their executive functions were transferred to the new Boards. They felt that their work in the past had been good and wanted time to consider the Sanitary Commissioner's communications to them and to Government and wanted a Committee to be appointed to consider the matter. I thought it undesirable to let the matter go to a Committee and asked them for an idea of the points that might be discussed in a Committee. They spoke upon various aspects of the question and the accompanying Resolution embodies the gist of the discussion.

I have the honour to be

12. Read:-

(1) Sanitary Commissioner's No.639-46 dated 26th August 1907 requesting reference to para 3 (9) of Government Proceedings No. 1378-92/San.93-06-8 dated 10th August 1907 and asking for proposals as regards the formation of and the duties and powers to be delegated to the new District Sanitary Board and the funds to be administered by that body.

(2) Government Order No.1378-92/San.93-06-8 dated 10th August 1907 sanctioning the scheme for the constitution of a Department of Public Health in the State.

(3) Sanitary Commissioner's letter No.2090-97 dated 7th January 1908 enquiring if the Sanitary Inspectors have been put under the District Medical and Sanitary Officer pending the appointment of a District Sanitary officer.

Proposed by Mr.Ramanuja Iyengar that the members should have time to consider the matter and that a Committee be appointed for the purpose as the question greatly affected the position and powers of the Board. Supported by other members. It was argued that not very long ago the Government passed a Local Boards' Regulation and a Municipalities' Regulation with the object of securing a substantial measure of independent non-official opinion and co-operation and secure as far as possible the benefits of what is known as Local Self Government. The proposed new Sanitary Board and the Central Board seem to cut against the principles of Local Self Government Hitherto the Local Boards dealt directly with the Government but now the pro posed Local Sanitary Board will sit over them and over that Board again will sit the Central Sanitary Board at Bangalore and these two Boards are sure to take away much of the prestige of the Taluk and District Boards. Eventually the new Boards will assume to themselves considerable authority over the Local Boards. It cannot be said that the members of the Local Boards have been unmindful of their duties and responsibilities in re-

gard

regard to sanitation. They have recognised the benefits of wholesome supplies of drinking water of free light and air, of proper drainage and high and dry surroundings and other matters concerning Public Health. With daily advancing notions of Hygiene and Sanitary Engineering and with the plague to insist on those notions taking a practical form, what the Local Boards and Municipalities require is not so much the help of medical men as of Engineers with a knowledge of Sanitary Science. Last year or the year before was discussed here in another connection the comparative usefulness of Sanitary Medical officers and of Sanitary Engineers and the Board were of opinion that sanitary works for the improvement of the sanitation of towns and villages was more the province of the Engineer than of the medical man. With advancing education, Bacteria and other causes of ill health were getting better known. The evils of damp and unclean surroundings and the paramount importance of wholesome drinking water have been recognised all over the Province for many years past without the help of a Central Sanitary Board at Bangalore. The Government Budgets will show the large amounts spent year after year in towns and even remote villages upon drainage and drinking water, upon the acquisition of insanitary houses and house sites and of new high and dry sites for new dwellings.

If ideal progress has not been attained it is not so much the fault of the various public bodies concerned as of their limited resources. In this meeting has been read and accepted with thanks a special allotment by Government for fresh water supply. Government have all along recognised the importance of measures tending to Public Health and have never been slow to supplement the resources of Local Boards from other sources and they were not advised thereto by any special Board at Bangalore or at District Head Quarters.

It is respectfully asked that the present functions of the Boards be allowed to continue. It is earnestly suggested for consideration if the present Municipal and other Boards are not

not really so many Sanitary Boards in every sense of the expression. It is not possible to gainsay the benefits of employing men trained in Sanitary Science and Government have not been backward in recognising this fact. They sanctioned a scheme of Sanitary Inspectors and Assistant Inspectors some time ago. These officials with the aid of the local Engineering and Medical officers and of the President and Vice President and the gentlemen forming the Boards should be enough to secure the objects of Government in the way of Sanitation. It is respectfully suggested that Government be pleased not to subordinate the Board to a single Departmental Head or to a collection of Departmental Heads at Bangalore but to be pleased to allow the Board as hitherto to carry out all their measures of sanitation in direct correspondence with Government and thereby continue to them the prestige hitherto enjoyed.

The Board feel assured that should there be any drawbacks in their measures of sanitary improvement they would be found upon examination to be defects due to want of funds rather than to other causes. If more moneys could be granted to works more progress than has been achieved in the past could be shown.

Should Government be pleased to decide finally that a District Sanitary officer should be appointed, the Board beg that he may be made entirely subordinate to them ----- to be appointed by them and to be removed from office by them. The Board fear that para 3 (6) of the Government Order might lead to unnecessary friction and unpleasantness between the District Boards and Sanitary Boards and they earnestly beg that the age, experience and intelligence and Knowledge of local requirements possessed by the members of the Board may not be subjected to the whims and fancies of District or Divisional Sanitary officers with more Departmental ardour than sympathy with the people or knowledge of local wants

The Board beg to suggest that these views and the Senior Surgeon and Sanitary Commissioner's communications to Government

be sent round to all Municipal, Taluk and District Boards in the Province and their views obtained before bringing into force the Senior Surgeon and Sanitary Commissioner's views. The Board with their knowledge of what has been achieved in the past in this State in matters relating to Hygiene and Public Health and of what is being done at the present moment, are unable to concur with the Senior Surgeon and Sanitary Commissioner's wholesale condemnations of both Government and Board and their measures.

19

M. Thengiah Chetty, Esquire B.A.,
Deputy Commissioner and President
District Board, Chitaldrug District.

G. S. Balasundram Iyer Esquire B.A.
Offg. Secretary to the Government of
H. H. the Maharaja of Mysore
General and Revenue Departments,
Bangalore.

Sir,

I have the honor to report that the Sanitary Commissioner in Mysore, has requested me to intimate whether the Sanitary or Assistant Sanitary Inspectors, employed in this District, have been placed at the disposal of the District Medical and Sanitary Officer, Chitaldrug, as requested in para 6 of Government Proceedings No. 1878-92 /San 98-05-8 dated 10th August 1907. I beg to state that when the scheme of employing trained Sanitary Inspectors for each Taluk Board or Municipality was sanctioned in 1905, it was evidently the intention of Government that these Officials should also

be

From

The Deputy Commissioner
Chitaldrug District.

To

The Secretary to the Government
of H. H. the Maharaja of
Mysore, General and Revenue
Dated 18th Departments, Bangalore.
Despatched 19th March 1908.
Received

General No. 415
No.

Enclosure No. 2

Submitting for orders the question of placing the services of the Sanitary or Assistant Sanitary Inspectors at the disposal of the District Medical and Sanitary Officer in accordance with G.O.No. 1378-92/San.93-06-8 dated 10.8.1907.

be entrusted with the supervision and execution of Public Works in their respective Urban and rural areas in addition to the work improving sanitation in villages and towns, as the Municipal and District Funds cannot possibly meet the cost of employing both these officials. In their Proceedings No. 5965-74/San 113-06 dated 21st December 1907, Government approved of the proposals of dispensing with the services of Work Inspectors on the appointment of qualified Inspectors.

2 Almost all the Work Inspectors in this District have been already absorbed in filling up the posts of additional clerks sanctioned by Government for the Local Fund Works in the District and Taluk Offices and steps are being taken by employing Assistant Sanitary Inspectors for these vacancies. If the request of the Sanitary Commissioner referred to above be complied with, I beg to state that the Local Boards' Executive will either be entirely deprived of the professional assistance given to them in

the

the matter of supervision and execution of public Works, or dual control will have to be exercised over the Sanitary Inspectors both by the Medical and Sanitary Offices. In the former case, the difficulty arises as to how the public Works have to be executed without proper assistance and in the latter, I am afraid that smooth and harmonious working will be impeded. I therefore submit this question both with the copies of the marginal by noted references for the kind consideration of Government and also for such orders as they may deem fit to pass in the matter.

I have the honor to be

Sir,

Your most obedient Servant

C. [illegible]

for Deputy Commissioner

and President.

Copy of Memorandum No. 1742 dated 2/XII/05 addressed to the Sanitary Commissioner with Govt. in duplicate.

Copy of resolution No. 4 recorded at the 8th Meeting of the Board held on the 8th January, 1906

No. 1742

Office of the Deputy Commissioner
Chitaldrug District
Dated. Chitaldrug 21st January 1908.

From

M. Chengiah Chetty Esquire B.A.
Deputy Commissioner
Chitaldrug District.

To

Major A. E. Drake Brockman I. M.S.
Sanitary Commissioner to the Government
of Mysore, Bangalore.

Sir,

With reference to your circular No. 639-46 dated 26th August 1906, calling for my views as regards the formation of, and the duties and powers to be delegated to the District Sanitary Board, and the funds to be administered by that body, I have the honor to forward herewith a copy of the resolution of the Chitaldrug District Board, recorded at their meeting held on the 8th Instant for your information

It will be seen therefrom that the District Board are unanimously of opinion that the District Sanitary Board should be so constituted as to be a part and parcel of the former and

that

that the funds to be allotted by the respective Local Boards for Sanitary purposes should be expended only in consultation with the District Sanitary Board which shall purely be an advisory body. I am quite in concord with the views expressed in the said resolution and am therefore not in favor of any additional powers or duties being delegated to the District Sanitary Board, which may trench upon the legitimate rights and powers of the Self-governing bodies like the District or Municipal Boards. Further, as regards the control to be exercised over Sanitary Inspectors, I feel bound to say that it is highly desirable that the Sanitary Inspectors whose pay is met entirely from Municipal and District Funds, should be under the orders of the Presidents of the respective Local Boards in order to enforce discipline and proper performance of their duties and that they may act under the orders of the District Sanitary Officer during

during the outbreak of epidemics when public safety calls for concentrated action.

I have &c.

(Signed) M. Hemphill

Deputy Commissioner

Thitaloung District.

IV Read:

(1) Sanitary Commissioner's circular No 639-46 dated the 26th August 07 requesting to submit the proposals regarding the formation of, and the duties and powers delegated to the District Sanitary Board sanctioned in Government Proceedings No 1378-92/San 93-06-8 dated 10th August 07 and the funds to be administered by that body.

(2) Memorandum on the said Scheme by Mr. Chandy, Senior Assistant Commissioner Davangere, expressing his views on the said Scheme.

Resolution.

Resolved that a District Sanitary Board be formed as per Government order referred to above, that the two non-official Members required to be on the said Board be Nominated by the President of the District Board from among the non-official Members of that body, that this new Board act as an advisory body like the Finance Committee on all Sanitary matters, that the funds annually allotted from District funds for Conservancy and Sanitary purposes be spent by the District Board in Consultation with the District Sanitary Board, which shall be part and parcel of

the District Board; and that Sanitary Inspectors will be appointed by the Presidents of District or Municipal Boards concerned in consultation with the District Sanitary Board, and that, it is very desirable they should be under the control of the Board's Executive for disciplinary purposes and when Epidemics break out and when public safety requires concentrated action, their services may be placed at the disposal of the Divisional Sanitary Officer.
